Objective

Motivated Computer Science Senior at Kennesaw State University with advanced skills in programming, IT systems, and software development, seeking an IT internship to leverage expertise in coding, system optimization, and collaborative innovation. Passionate about contributing to impactful, scalable solutions while developing leadership and technical proficiencies in a dynamic, growth-oriented environment.

Skills

- **Programming & Database Languages:** Python, Java, C#, SQL
- **Technical Expertise:** Agile Methodologies, Git (Version Control), AI & Monitoring, Object-Oriented Programming (OOP) and Debugging, Software Engineering and Project Management, Data Structures & Algorithms, Database Design & Management, System Architecture
- **Tools & Platforms:** Visual Studio Code, MySQL DBMS, Linux/Unix, Cloud Computing Basics
- **Emerging Technologies:** Machine Learning Fundamentals, API Integration, Cybersecurity Awareness
- **Leadership & Soft Skills:** Teamwork & Collaboration, Problem-Solving, Communication, Adaptability, Time Management, Critical Thinking, Initiative

Experience

Fidelis Search, LLC *Accounting and Finance Recruiting Intern — Marietta, GA* *May 2025 - August 2025*

- Streamlined organizational workflows by designing and implementing efficient file management systems, printing, sorting, and storing documents with precision.
- Demonstrated adaptability and prioritization skills by managing diverse tasks, including errands, package logistics, and office mail operations.
- Supported marketing initiatives by collaborating on Search Training guides and assembling client gift packages, showcasing attention to detail and creative problem-solving.

DoorDash, Inc *Delivery Driver — Reston, VA* *May 2024 - August 2024*

- Optimized delivery routes to ensure timely and accurate order fulfillment, meeting or exceeding estimated pickup and delivery timelines.
- Applied spatial problem-solving and time management skills to secure safe, efficient parking during high-pressure pickup and drop-off scenarios.
- Maintained consistent communication with customers and stakeholders to enhance service quality and satisfaction.

Self Employed *Landscaper — Marietta, GA* *March 2017 - August 2024*

- Independently managed landscaping projects, utilizing tools like lawn mowers, edgers, and leaf blowers to deliver high-quality, client-focused results.
- Developed entrepreneurial skills, including self-discipline, resource management, and customer relationship building, through consistent service delivery.

Education

Bachelor of Science in Computer Science *Kennesaw State University, Kennesaw, GA | Expected Graduation: December 2026* GPA: 3.2

Relevant Coursework:

- Programming and Problem Solving (C#, Java)
- Data Structures & Algorithms Analysis
- Database Systems (SQL)
- Operating Systems
- Computer Organization & Architecture
